In response to applicant's filing dated April 20, 2004. The following action is taken:

Claims 1-3 are allowed.

The following is an examiner's statement of reasons for allowance: none of the cited prior art shows or teaches an optical disk reading apparatus comprising means for generating a plurality of reflected light beam from at least one forward light beam on an optical disk (112-113), each one of the reflected light beam having plurality of intensity distribution variations which are inverted to each other. An electrical circuit which adds the focusing error signals of the plurality of reflected light beams and providing a difference signal 303, using a gain 301, 302 to amplify the tracking error signals, the gain having a proportional ratio value to a total amount of reciprocal of each of the reflected light beams and providing a difference signal 304 as shown in fig 3

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. 6011762.

Any inquiry concerning this communication should be directed to NABIL Z HINDI at telephone number (571) 272-7618.
